

Comeonin Thai Food & Craft Beer

In addition to fresh vegetables, our Thai chefs use many fresh herbs such as ginger, garlic, galangal, coriander, lemongrass, lemon leaf and Thai basil. The various dishes are flavored with ingredients such as oyster sauce, fish sauce, coconut milk, lime juice and palm sugar. We hardly use salt and artificial flavors are not used. Our specialties are various curry sauces that can be combined with tofu, vegan chicken style pieces, chicken, beef or shrimp.
